

On behalf of all of us here at:

THANK YOU FOR YOUR PURCHASE!

Dear Woodworkers,

We appreciate your interest in Multiple Layer inlay Stencils. We believe that we provide a simple way to create high quality inlays over and over, for an affordable price using our stencils. While we are confident in our stencils, we always value your feedback to help us create designs that you want to use so please let us know what you think in the contact us section. Also, on the contact us page be sure to send us a picture of your finished inlay along with a word or two about the piece, and we would love to show it off on our site for everyone to see. For any additional questions, or support please send us an email at: TarterWoodworking@TarterWoodworking.com

Like us on Facebook via the website homepage to get updates on special events, pricing, and new design releases!

Thanks Again,

Tarter Woodworking LLC

Additional Instructions: Peace

***FOR A DETAILED 10 MINUTE INSTRUCTIONAL VIDEO ON “HOW TO CREATE AN INLAY USING A MULTIPLE LAYER INLAY STENCIL”, PLEASE VISIT THE “HOW TO” SECTION OF THE WEBSITE: WWW.TARTERWOODWORKING.COM.

However this particular design does require some additional instructions besides the basics available in the above mentioned video...

1. For clarity, directions are to recreate with the same woods as the display. However you can use any type of wood that you like. The thing that makes every inlay special is finding the perfect color or wood grain to accentuate the design.

Step#1 Cut your inlay pieces. Be sure that the collar is removed from your 1/8 In. inlay kit. When cutting 1-B Or the bottom half of the circle, with the plate face side up grab at the top and flip plate toward yourself so it is upside down. When cutting the pocket later use the plate in the same orientation.

Step#2 Install the collar on the inlay kit. Set up positioning plates on your project piece and cut pocket on plate #1 marked 1. Glue inlay in place, let dry and sand flush.

Step#3 Complete step number 2 for each of the inlay pieces in numerical order.
